

COURSE SPOTLIGHT CAMPAIGN SYSTEM

Placement and visual system

Spring 2026 | 1

Canvas 1080 x 1350 px, portrait	Channels College website and partner newsletters	Review size Readable at 50% display width
---	--	---

Palette

Campaign teal	#0B8F7B	Charcoal	#3E4346
Warm gray	#F3F1EC	Deadline accent	#F6C445
White	#FFFFFF	Accent rule	Yellow is reserved for a small registration or deadline emphasis.

Typography

- Use one clean sans-serif family. Different weights may establish hierarchy.
- The title may use bold or condensed sans serif and should remain compact; two lines are preferred and three are acceptable when spacing remains balanced.
- Body copy is sentence case. Avoid script, serif display, brush, western, and novelty typefaces.
- Schedule, fee, deadline, venue, and URL must remain legible at 50% display width.

Brand mark

- Use the current horizontal Garrett College CEWD mark from the asset library. Do not redraw, outline, rebuild, stretch, or crop it.
- Place the mark in a solid teal or charcoal footer band occupying about 10-12% of poster height.
- Retired marks may remain in the library for archive reference but are not current campaign identity.

COURSE SPOTLIGHT CAMPAIGN SYSTEM

Poster hierarchy and copy limits

Spring 2026 | 2

Recommended reading order

1	Course title, code, and Spring 2026
2	One eligible course image
3	Two labeled schedule stages, each with dates, time, and meeting place
4	Fee, instructor, audience, and concise participant-preparation note
5	Exactly three short learning takeaways
6	Registration deadline and URL in one prominent CTA block
7	Official footer brand band

Layout checks

- Title block should use no more than about 22% of the poster height; the course image should use no more than about 24%.
- Show the indoor and outdoor stages as separate cards or clearly labeled groups, not as one dense prose paragraph.
- Keep the deadline and registration URL together and more prominent than secondary copy.
- Do not repeat dates, price, venue, or instructor in multiple sections.

Copy limits

- Exactly three takeaways, following the requested gear - setup - casting progression. Each should be nine words or fewer.
- Audience line: one sentence, 18 words or fewer.
- Participant-preparation note: one sentence, 22 words or fewer. Preserve the meaning of the released instruction; concise paraphrase is acceptable.
- Do not copy the instructor biography or the full catalog description.

Image treatment

- Use one course-relevant image from the asset library whose rights window and channel permissions cover the campaign date and deliverable.
- Use the image as a banner or contained panel rather than a full-page background.
- Do not add isolated fish, angler silhouettes, decorative flies, clip-art badges, or generated scenic composites.

Source order for public facts

- Registrar change log: apply the field-guide rule to records released and effective by February 20, 2026.
- Spring 2026 catalog: baseline for course facts that have no applicable change record.
- Creative request and campaign standards: content priorities, copy limits, layout, and asset use.

Release check

- Do not publish Draft, Withdrawn, Superseded, or later-effective changes.
- Use the current campaign mark and a course-relevant image whose rights and channels cover this poster.
- Keep audit notes internal. Only designated public fields supply poster copy.
