

COURSE SPOTLIGHT CAMPAIGN SYSTEM

Placement and visual system | Spring 2026 | 1

Canvas 1080 x 1350 px, portrait	Channels College website and partner newsletters	Review size Readable at 50% display width
------------------------------------	---	---

Palette

Campaign teal #0B8F7B	Charcoal #3E4346
Warm gray #F3F1EC	Deadline accent #F6C445
White #FFFFFF	Accent rule Yellow is reserved for registration or deadline emphasis.

Typography and brand mark

- Use one clean sans-serif family. Weight changes may establish hierarchy; body copy stays sentence case.
- Keep the full title compact. Schedule, fee, deadline, address, policy notes, and URL must remain legible at 50% display width.
- Avoid script, serif display, brush, western, and novelty typefaces.
- Use the current horizontal Garrett College CEWD mark. Do not redraw, outline, rebuild, stretch, or crop it.
- Place the mark in a solid teal or charcoal footer band occupying about 10-12% of poster height.

COURSE SPOTLIGHT CAMPAIGN SYSTEM

Public-content architecture | Spring 2026 | 2

Recommended reading order

1	Full course title, code, and Spring 2026
2	One eligible course image
3	Original one-sentence course summary
4	At-a-glance facts: five sessions and calculated total instruction hours
5	Indoor and outdoor schedule stages with dates, weekdays, times, and meeting places
6	Fee, instructor, audience, participant preparation, and before-you-register guidance
7	Exactly three learning takeaways
8	Deadline and registration URL in one prominent action block
9	Official footer brand band

Copy limits and factual rules

- Course summary: one original sentence, 18 words or fewer; preserve hands-on format and skill progression without copying catalog prose.
- Audience line: one sentence, 18 words or fewer.
- Participant-preparation note: one sentence, 24 words or fewer; preserve the latest released instruction.
- Learning takeaways: exactly three in the requested gear - setup/knots - casting order; each 11 words or fewer.
- Before-you-register guidance may use up to three short lines: registration basis, refund summary, and weather line.
- Show weekdays attached to dates. Do not replace the mixed weekday sequence with one recurring weekday label.
- Show total instruction hours as a calculated fact, not an invented marketing number.
- Do not copy the instructor biography, full catalog paragraph, staff-directory contact details, or registrar audit language.

COURSE SPOTLIGHT CAMPAIGN SYSTEM

Layout, assets, and source order | Spring 2026 | 3

Layout checks

- Title block should use no more than about 20% of poster height; the course image should use no more than about 22%.
- Show indoor and outdoor stages as separate labeled groups, not one dense prose paragraph.
- Keep the action block more prominent than policy notes; keep policy notes present but compact.
- Do not repeat dates, fee, instructor, location, or URL in multiple sections.
- Use one contained course image rather than a full-page background. Do not add isolated fish, angler silhouettes, decorative flies, clip-art badges, or generated scenic composites.

Asset library - campaign date February 20, 2026

Source order and release check

- Registrar change log: apply only Approved records effective by February 20, 2026, using the latest applicable effective date per field.
- Spring 2026 catalog: primary baseline for course facts, location expansion, registration/refund guidance, and inclement-weather guidance.
- Creative request and campaign standards: required content, derivations, compression, reading order, and asset use.
- Do not publish Draft, Withdrawn, Superseded, later-effective, neighboring-course, or internal audit content.
